RELEVANT EXPERIENCE

Independent Consultant, from Jun 2016
Kitchener, ON

- ❖ Build and maintain WordPress websites using HTML, CSS, and PHP with a focus on responsive design and web accessibility.
- ❖ Collaborate with clients to gather product requirements and iteratively design products based on client input and feedback.
- ❖ Source for product testers, provide testing instructions, bug and defect tracking and reporting guidelines.
- ❖ Work independently, prioritize tasks, take initiative and pay attention to details.

Quality Assurance and Application Systems Analyst, Apr 2012 – May 2015
CANCERCARE MANITOBA — Winnipeg, MB

- ❖ Planned system upgrades, tested and installed new releases, and migrated to new systems.
- ❖ Managed test groups and participated in user acceptance testing to validate and verify readiness for new implementations.
- ❖ Provided launch support and communicated issue impact and workarounds to departmental leads.

Senior Quality Assurance Analyst, Nov 2010 – Sept 2011
SMART TECHNOLOGIES — Calgary, AB

- ❖ Led enterprise hardware and software testing initiatives. Prioritized testing tasks based on project goals and risks.
- ❖ Participated in Agile sprint planning, daily standup meetings, retrospectives and sprint reviews.
- ❖ Analyzed functional specifications, prepared, and executed test plans, using SpiraTest Test Management Software, to ensure quality deliverables

IT Security Analyst, Feb 2010 – Oct 2010
SYMANTEC CANADA — Calgary, AB

- ❖ Conducted Web Applications Vulnerability Assessments and analyzed the scope and criticality of software and hardware vulnerabilities. Verified vulnerabilities, and developed, edited, and delivered vulnerability security reports.

PROJECTS

Toolchain: AWS Lambda, DynamoDB, Twilio API, VueJS, Python, API Gateway WebSocket, React, WordPress, PHP

Book Picture App | GitHub | Web

- ❖ This is a real-time application that utilizes AWS Lambda WebSocket and Twilio API. When a user sends a picture to my Twilio number, the front end receives an update message and automatically fetches the new data and refreshes the page.
